

QCS1 SERIES COMPACT CONVEYOR TOASTER

QCS Features/Benefits:

- Patented forced convection system keeps the toaster cool to the touch and extends the life of critical components. The forced convection system increases productivity by re-circulating pre-heated air into toasting chamber.
- Quartz infrared heaters provide faster, more consistent heating than traditional heating elements.
- Compact - requires only 14-1/4" of counter space and our patented forced convection system allows the unit to be placed against a wall. Other toasters have louvers requiring additional counter space.
- Highest production of any compact toaster -
 QCS1-350 toasts up to 350 slices per hour
 QCS1-500B toast up to 500 bagel halves per hour
- Easy to use control panel takes the guesswork out of speed control settings.
- Variable speed control for perfect color and texture of bread, bagels, English muffins and more!
- Energy efficient operation with power saver switch that reduces electricity consumption by 75%. And our quartz heaters return to full power in seconds vs. minutes for metal-sheathed elements.
- Extended conveyor belt for easy loading and large warming area for higher production.
- Safe load up area with full width front burn guard and cool to the touch exterior.
- "Smart" crumb tray keeps the bread crumbs from falling under the toaster.
- Heated holding area to keep toast at the perfect temperature.
- Hi-limit switch prevents toaster from overheating protecting critical component parts.
- 24 hours 7 days a week technical support by Holman technicians.
- 120V - plugs in anywhere.

QCS1-350

Applications:

Holman's QCS compact conveyor toaster has been designed and engineered for the budget minded small volume operation. The QCS toaster is compact and versatile requiring minimal counter space and delivers perfect toast, bagels, buns, English muffins, frozen waffles and more for about the price of a pop up toaster.

Quality Construction:

Holman designs every toaster to stand up to the most rigorous foodservice demands. Stainless steel construction for long lasting durability. Heavy-duty motor, drive chain and conveyor speed control for superior reliability. Conveyor belt tension system for smooth and quiet operation. High performance Quartz Infrared Heaters for superior toasting performance and reliability. Units are easy to disassemble with one-piece cover for cleaning and service. Toasters are furnished with 1" adjustable legs and 4' cord and a standard NEMA 5-15 plug for plug in installation in a grounded 120V outlet.

QCS1-500B

Warranty:

Holman's conveyor toasters are covered by a one-year parts and labor warranty.

Typical Specifications

Compact conveyor toasters are constructed of corrosion resistant stainless steel. Supplied with heavy-duty motor, drive chain and fast heat up quartz infrared heaters. A conveyor belt tension system is supplied for a smooth, quiet operation. Units are supplied with variable speed control, power saver and high limit switch. Extended conveyor belt, crumb tray, heated holding area and full width burn guard are standard. Unit has a one-piece cover for easy access with 1" adjustable legs and a 4' cord. Units are listed with UL, CUL and are UL certified to NSF4. Printed in the U.S.A.
